Pastoral Centre of Paul VI

This show was developed by the Vortice Dance Company for the celebration of the Centennial of the Apparitions of Fatima. It has as its base theme the Fatima phenomena and puts together artists from distinct areas and different countries in the process of research and creation. In this project, the audience will be confronted and questioned about the timelessness of the message of Fatima. A high innovation of this project is explained by the crossing of several artistic areas, such as dance, video support, *video*

mapping, holographic modeling, 3D scenography, and allied with the well-known artistic excellency of the intervenient, will make this a leading product yet targeting all sort of public.
